PROFESSIONAL SUMMARY

MIS System Analyst who looks at business processes and systems, writes clear requirements and to-be process flows, and helps teams roll out improvements that people actually use. Supports business systems, reporting and automation at GNB Global, trains end users and writes user guides. M.S. in Computer and Information Sciences from the University of North Texas.

TECHNICAL SKILLS

Automation & Tools: SQL, Python, Power BI, Excel, Dashboards, Jira, Confluence, PowerShell

Systems: Windows Server, Windows 10/11, Linux, VMware

Microsoft 365: SharePoint, Power Automate, Teams, Exchange Online, SharePoint Online, OneDrive, Dropbox Business, Adobe Acrobat

Identity & Access: Microsoft Entra ID (Azure AD), Active Directory, Group Policy, RBAC, MFA, Conditional Access, SSO, Security Groups

Endpoint Management: Microsoft Intune, Windows Autopilot, Win32/MSI/MSIX Deployment, Configuration Profiles, Compliance Policies, BitLocker

Security: Microsoft Defender for Endpoint, Xcitium Endpoint Security, MITRE ATT&CK, NIST

Networking: TCP/IP, DNS, DHCP, VPN, VLANs, Routing & Switching, Wireshark

PROFESSIONAL EXPERIENCE

IT Technician & Administrator / *GNB Global Inc.*

Dec 2025 to Present

- Sit with business teams to map current workflows, find manual steps and write requirements and to-be process flows for improvements.
- Support internal business systems and reports, troubleshoot user issues and coordinate fixes with vendors and developers.
- Automated recurring reports and approvals with Python, SQL and Power Automate, cutting hours of manual work each week.
- Plan and coordinate system upgrades and rollouts, including scheduling, testing and user communication.
- Write user guides and training material and train staff on new or changed systems.
- Build dashboards so managers can track operations data without asking IT for exports.

Network & Automation Engineer Intern / *Intelligenie*

Jan 2025 to Dec 2025

- Gathered requirements from client teams and turned them into user stories and test cases.
- Worked with offshore developers on automation tools and ran functional testing before release.

Network Engineer Intern / *Toplyne*

Oct 2021 to Sep 2022

- Supported network monitoring, troubleshooting and day-to-day operations across Windows-based environments.

PROJECTS

Security Intelligence Platform / *Python, FastAPI, React, JWT, YAML, MITRE ATT&CK*

- Built a platform that reads security logs in JSON, Syslog, CSV and plain text, detects the format automatically and turns them into readable findings.

Network Validation & Automation Toolkit / *Python, Netmiko, Paramiko, Sockets, JSON*

- Automated Layer 2/3 validation: IP connectivity, interface status, routing tables, VLAN configuration and reachability.

EDUCATION & CERTIFICATIONS

Master of Science in Computer and Information Sciences / *University of North Texas*

Dec 2024

B.Tech in Computer Science and Engineering / *Lovely Professional University*

May 2022

EC-Council Certified Cybersecurity Technician (C|CT)
