PROFESSIONAL SUMMARY

IT Engineer who runs identity, endpoints, office networks and SaaS tools for 200+ people and 190+ devices at GNB Global, and automates the repetitive work in Python, Bash and PowerShell. Works with Okta and Entra ID SSO (SAML, OIDC, SCIM provisioning), Google Workspace, Microsoft 365, Intune and Jamf, and keeps device and access controls ready for SOC 2 style audits. M.S. in Computer and Information Sciences from the University of North Texas, EC-Council C|CT.

TECHNICAL SKILLS

Identity & Access: Microsoft Entra ID (Azure AD), Active Directory, Group Policy, RBAC, MFA, Conditional Access, SSO, Security Groups, Identity Lifecycle Management, Okta, SAML, OIDC, SCIM Provisioning, Google Workspace Admin

Automation & Tools: PowerShell, Python, Ansible, Git/GitHub, GitHub Actions, ServiceNow, Jira, Visio, Bash, Terraform, REST APIs, Slack, Zoom

Endpoint Management: Microsoft Intune, Windows Autopilot, Win32/MSI/MSIX Deployment, Configuration Profiles, Compliance Policies, BitLocker, Jamf, Kandji, macOS, osquery

Networking: TCP/IP, DNS, DHCP, VPN, VLANs, Routing & Switching, Wireshark, Cisco Meraki, Ubiquiti UniFi, Firewalls, Zero Trust Access, Office Network Buildouts

Security: Microsoft Defender for Endpoint, Xcitium Endpoint Security, BitLocker, MITRE ATT&CK, NIST, SOC 2, ISO 27001 Controls, Access Reviews

Microsoft 365: Exchange Online, Teams, SharePoint Online, OneDrive, Power Automate, Dropbox Business, Adobe Acrobat, Bluebeam

Systems: Windows Server, Windows 10/11, Linux, VMware

PROFESSIONAL EXPERIENCE

IT Technician & Administrator | GNB Global Inc.

Dec 2025 to Present

- Own identity, endpoint, office network and SaaS administration for 200+ users and 190+ Windows and Mac devices.
- Run SSO and MFA through Okta and Entra ID with SAML and OIDC apps, and use SCIM provisioning so new hires get the right access on day one and lose it the day they leave.
- Manage devices with Intune, Autopilot and Jamf: enrollment, configuration profiles, compliance policies, disk encryption and app deployment.
- Write Python, Bash and PowerShell scripts that check device compliance, clean up stale accounts and push configuration changes instead of doing them by hand.
- Collect evidence for SOC 2 and ISO 27001 style controls: access reviews, encryption status, patch levels and offboarding records.
- Manage Meraki and UniFi switches, access points and firewall rules for the office network, including VLANs and guest Wi-Fi.
- Administer Google Workspace, Microsoft 365, Slack and Zoom, and deploy Microsoft Defender and Xcitium endpoint security.
- Support employees directly on hardware, accounts and network issues and turn repeat fixes into documentation or automation.

Network & Automation Engineer Intern | Intelligenie

Jan 2025 to Dec 2025

- Supported Windows and Linux infrastructure and enterprise networking.
- Developed Python and PowerShell scripts for administrative automation, network validation and operational reporting.

- Created infrastructure documentation and standard operating procedures.
- Resolved Layer 2/3 issues involving DNS, DHCP, VPN, TCP/IP, routing, switching and VLANs.

Network Engineer Intern / *Topylne*

Oct 2021 to Sep 2022

- Supported network monitoring, troubleshooting and day-to-day operations across Windows-based environments.
- Monitored system availability, network health and bandwidth utilization, and reported performance issues.
- Performed infrastructure health checks and preventive maintenance; maintained troubleshooting guides and inventory records.

PROJECTS

Network Validation & Automation Toolkit / *Python, Netmiko, Paramiko, Sockets, JSON*

- Built a Python toolkit that checks connectivity, interface status, routing tables and VLAN configuration over SSH and writes a structured report.
- Replaced manual post-change checks with one scripted run; code is on GitHub.

Security Intelligence Platform / *Python, FastAPI, React, JWT, YAML, MITRE ATT&CK*

- Built a platform that reads security logs in JSON, Syslog, CSV and plain text, detects the format automatically and turns them into readable findings.
- Added threat scoring, correlation of related events, MITRE ATT&CK mapping and NIST checks. Deployed it on Railway and Vercel from GitHub.

CERTIFICATIONS

- EC-Council Certified Cybersecurity Technician (C|CT)

EDUCATION

Master of Science in Computer and Information Sciences / *University of North Texas*

Dec 2024

Bachelor's Degree / *Lovely Professional University*

May 2022
