PROFESSIONAL SUMMARY

IT Engineer who runs networks, computers and IT infrastructure end users depend on: new hire accounts and devices, office and lab connectivity, and access and security across systems. Works closely with technical teams to understand what they need, fixes hardware and software problems hands-on, and builds IT processes that scale as a company grows. M.S. in Computer and Information Sciences from the University of North Texas, EC-Council C|CT.

TECHNICAL SKILLS

Networking: Office and Lab Networks, VLANs, Firewalls, Wi-Fi, VPN, Switching, Cabling, TCP/IP

Identity & Access: Google Workspace, Okta, Entra ID, SSO, MFA, Access Reviews, Microsoft Entra ID (Azure AD), Active Directory

Endpoint Management: macOS, Windows, Linux Workstations, Jamf, Intune, Device Provisioning, Microsoft Intune, Windows Autopilot

Systems: Linux, Windows Server, File Storage, Backups, Printers and AV, Windows 10/11, VMware

Security: Microsoft Defender for Endpoint, Xcitium Endpoint Security, MITRE ATT&CK, NIST

Automation & Tools: Python, Bash, PowerShell, Ansible, Git, GitHub Actions, ServiceNow, Jira

Microsoft 365: Exchange Online, Teams, SharePoint Online, OneDrive, Power Automate, Dropbox Business, Adobe Acrobat, Bluebeam

PROFESSIONAL EXPERIENCE

IT Technician & Administrator / *GNB Global Inc.*

Dec 2025 to Present

- Run IT for 200+ people: networks, computers, accounts, access and day to day support.
- Set up accounts and devices for new hires on Mac, Windows and Linux, and handle offboarding the same day.
- Design and maintain the office network, including VLANs, firewall rules, Wi-Fi and VPN for remote and lab access.
- Manage access and security across systems with SSO, MFA and least privilege groups.
- Work directly with engineers to understand tool and hardware needs, then source, set up and support them.
- Script repeat work in Python, Bash and PowerShell and document every process so IT can grow with the team.

Network & Automation Engineer Intern / *Intelligenie*

Jan 2025 to Dec 2025

- Supported Linux and Windows infrastructure and networks in client labs and offices.
- Wrote Python and Ansible automation for network validation and configuration backups.

Network Engineer Intern / *Toplyne*

Oct 2021 to Sep 2022

- Supported network monitoring, troubleshooting and day-to-day operations across Windows-based environments.

PROJECTS

Network Validation & Automation Toolkit / *Python, Netmiko, Paramiko, Sockets, JSON*

- Automated Layer 2/3 validation: IP connectivity, interface status, routing tables, VLAN configuration and reachability.

Security Intelligence Platform / *Python, FastAPI, React, JWT, YAML, MITRE ATT&CK*

- Built a platform that reads security logs in JSON, Syslog, CSV and plain text, detects the format automatically and turns them into readable findings.

EDUCATION & CERTIFICATIONS

Master of Science in Computer and Information Sciences / *University of North Texas*

Dec 2024

B.Tech in Computer Science and Engineering / *Lovely Professional University*

May 2022

EC-Council Certified Cybersecurity Technician (C|CT)
