PROFESSIONAL SUMMARY

Business Systems Analyst who partners with operations teams to understand their workflows, write requirements and roll out enterprise applications and automation that people use. Supports users, writes documentation and training, and uses Python, SQL and AI assisted tools to automate support and reporting. M.S. in Computer and Information Sciences from the University of North Texas.

TECHNICAL SKILLS

Automation & Tools: Python, SQL, REST APIs, AI Assisted Support Automation, Power BI, Jira, Confluence, PowerShell

Systems: Windows Server, Windows 10/11, Linux, VMware

Microsoft 365: SharePoint, Power Automate, Exchange Online, Teams, SharePoint Online, OneDrive, Dropbox Business, Adobe Acrobat

Identity & Access: Microsoft Entra ID (Azure AD), Active Directory, Group Policy, RBAC, MFA, Conditional Access, SSO, Security Groups

Endpoint Management: Microsoft Intune, Windows Autopilot, Win32/MSI/MSIX Deployment, Configuration Profiles, Compliance Policies, BitLocker

Security: Microsoft Defender for Endpoint, Xcitium Endpoint Security, MITRE ATT&CK, NIST

Networking: TCP/IP, DNS, DHCP, VPN, VLANs, Routing & Switching, Wireshark

PROFESSIONAL EXPERIENCE

IT Technician & Administrator / *GNB Global Inc.*

Dec 2025 to Present

- Work with operations, finance and HR to map how they work today and write requirements for system and workflow changes.
- Support business applications for 200+ users, troubleshoot issues and coordinate fixes with vendors and developers.
- Automated recurring reports, approvals and onboarding steps with Python, SQL and Power Automate.
- Built an AI assisted ticket triage flow that drafts answers to common requests and routes the rest to the right person.
- Plan and test system upgrades and new tool rollouts, then train users and write guides.
- Build dashboards so managers can track operations data without asking IT for exports.

Network & Automation Engineer Intern / *Intelligenie*

Jan 2025 to Dec 2025

- Gathered requirements from client teams and turned them into user stories and test cases.
- Worked with developers on automation tools and ran functional testing before release.

Network Engineer Intern / *Toplyne*

Oct 2021 to Sep 2022

- Supported network monitoring, troubleshooting and day-to-day operations across Windows-based environments.

PROJECTS

Security Intelligence Platform / *Python, FastAPI, React, JWT, YAML, MITRE ATT&CK*

- Built a platform that reads security logs in JSON, Syslog, CSV and plain text, detects the format automatically and turns them into readable findings.

Network Validation & Automation Toolkit / *Python, Netmiko, Paramiko, Sockets, JSON*

- Automated Layer 2/3 validation: IP connectivity, interface status, routing tables, VLAN configuration and reachability.

EDUCATION & CERTIFICATIONS

Master of Science in Computer and Information Sciences / *University of North Texas*

Dec 2024

B.Tech in Computer Science and Engineering / *Lovely Professional University*

May 2022

EC-Council Certified Cybersecurity Technician (C|CT)
