PROFESSIONAL SUMMARY

Field IT Technician with a strong base in networking, Windows systems and databases. Installs and configures network gear, servers and wireless, troubleshoots hardware, software and connectivity on site, and keeps system diagrams and service notes accurate. Comfortable working independently at client sites and training end users. M.S. in Computer and Information Sciences from the University of North Texas, EC-Council C|CT.

TECHNICAL SKILLS

Networking: TCP/IP, VLANs, Switches, Wireless, PoE, Cabling, Wiring Diagrams, IPv4/IPv6, IP Addressing, Layer 2 Switching

Systems: Windows Server, Windows 10/11, SQL Server, PostgreSQL, Basic SQL Queries, Linux, Active Directory, VMware, Microsoft Entra ID, Intune

Security: Access Control Systems, Video Surveillance (VMS) Concepts, Network Segmentation for Cameras, Microsoft Defender for Endpoint, Conditional Access, MFA, MITRE ATT&CK, NIST

Tools: Documentation, System Diagrams, End User Training, Git/GitHub, GitHub Actions, ServiceNow, Jira, Microsoft Visio

Network Automation: Python, Ansible, Netmiko, Paramiko, Socket Programming, PowerShell, JSON, YAML

Monitoring & Analysis: Wireshark, Bandwidth/Latency Monitoring, Log Collection, Connectivity Validation

PROFESSIONAL EXPERIENCE

IT Technician & Administrator / *GNB Global Inc.*

Dec 2025 to Present

- Install and configure switches, wireless access points and Windows servers, and set up VLANs to keep device traffic separate.
- Troubleshoot hardware, software and network connectivity issues on site and remotely for 200+ users.
- Run basic SQL queries to check application data and help vendors configure database backed business apps.
- Read wiring diagrams and vendor documentation to plan installs, and update diagrams after each change.
- Train staff on new systems and keep service notes and project notes current for the team.

Network & Automation Engineer Intern / *Intelligence*

Jan 2025 to Dec 2025

- Supported client network installs across several sites, including switching, VLANs and wireless.
- Resolved Layer 2 and Layer 3 problems with routing, DNS, DHCP and VPN.
- Wrote Python scripts to validate network changes and back up device configs.

Network Engineer Intern / *Toplyne*

Oct 2021 to Sep 2022

- Supported enterprise network monitoring, troubleshooting and day-to-day network operations.
- Diagnosed and resolved TCP/IP, DNS, DHCP, VPN, latency and connectivity issues to maintain network performance.

PROJECTS

Network Validation & Automation Toolkit / *Python, Netmiko, Paramiko, Sockets, JSON*

- Automated Layer 2/3 validation: IP connectivity, interface status, routing tables, VLAN configuration and reachability.

Security Intelligence Platform / *Python, FastAPI, React, JWT, YAML, MITRE ATT&CK*

- Built a platform that reads security logs in JSON, Syslog, CSV and plain text, detects the format automatically and turns them into readable findings.

EDUCATION & CERTIFICATIONS

Master of Science in Computer and Information Sciences / *University of North Texas*

Dec 2024

B.Tech in Computer Science and Engineering / *Lovely Professional University*

May 2022

EC-Council Certified Cybersecurity Technician (C|CT)
